

**U.S. DEPARTMENT OF AGRICULTURE
RURAL DEVELOPMENT FINDING OF NO SIGNIFICANT
ENVIRONMENTAL IMPACT**

Rural Development has received an application for financial assistance from Webb Research Corporation. The proposal involves the purchase and installation of a 1.5 MW utility scale wind turbine. Hub height is approximately 262 feet, with blades extending another 126 feet. The Turbine will be located on the back portion of an undeveloped wooded lot in the Falmouth Technology Park. The turbine will sit on the highest elevation area (180 ft) in order to produce the best and highest wind capacity.

Rural Development has assessed the potential environmental impacts of the proposed action and has determined that it will not significantly affect the quality of the human environment. Therefore, Rural Development will not prepare an environmental impact statement for this proposed action.

Any written comments regarding this determination should be provided within fifteen (15) days of this publication to the West Wareham Rural Development area office at 15 Cranberry Highway, West Wareham, MA 02576.
